Everbridge Mobile App Installation and Setup

Installing the Application

Search for, download, and install the Everbridge application from the iPhone or Android App store. If using an iPhone, you may be required to enter your Apple ID and Password:

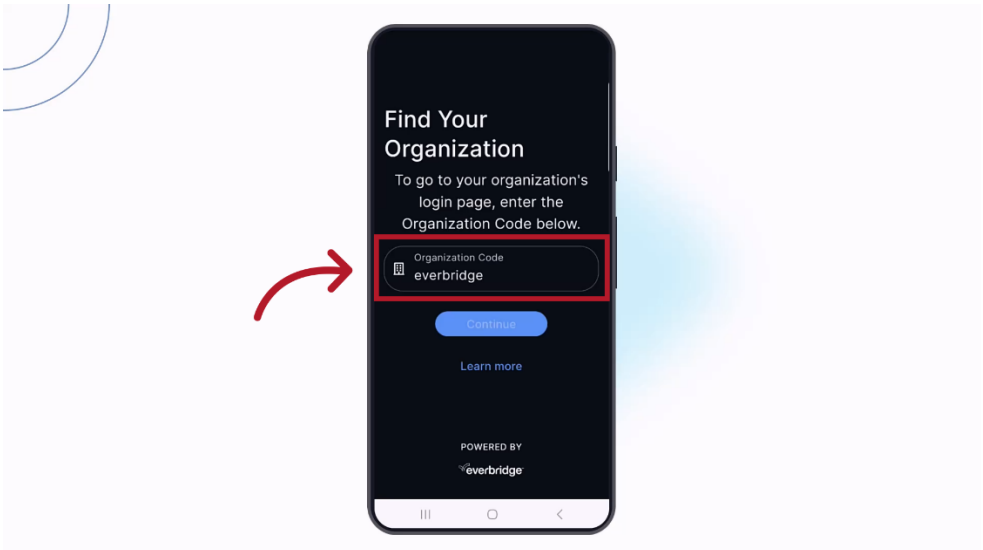

1. Search for Everbridge 360 in the search region of the Google Play Store or the iPhone AppStore
2. Look for the following app in the search results and select it (the icon may be different between iOS and Android):

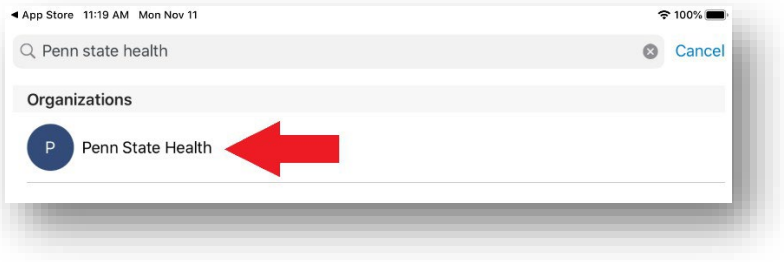

3. Click “Install” or the Cloud icon

Setting Up the Application

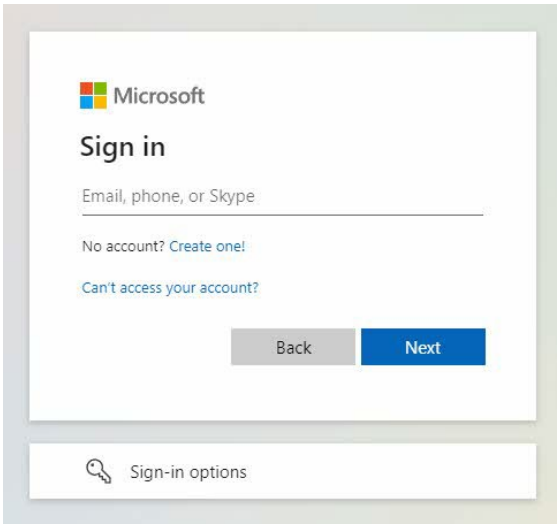

1. Open the Everbridge application
    a. You may be prompted to allow the application to trigger notifications. It is recommended to **allow** notifications.
2. Tap “Find an organization or subscription”.

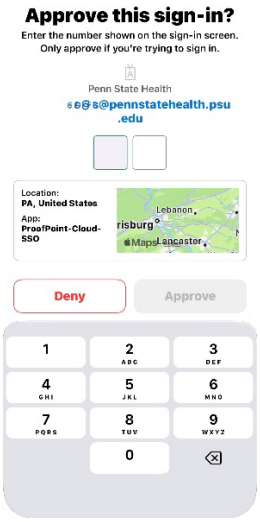

3. Search for “Penn State Health” using the “Organization, Keyword, or Zipcode” text box.
4. Tap “Penn State Health”.

5. Enter your Penn State Health credentials.
    a. This is your Penn State Health email address and password (the same one used to sign into a Penn State Health computer).

6. Complete the authenticator verification

7. A settings page is shown. Feel free to change the notification sounds, but the default settings are recommended.
    a. It is recommended to update your profile information.
